MISSION
“Professionals providing agricultural education for the global community through visionary leadership, advocacy and service.”

MESSAGE FROM EXECUTIVE DIRECTOR

NAAE celebrated a remarkable milestone in 2017-18 ... 70 years of providing support to our agricultural educators! Through the years, we continue to provide visionary leadership, advocacy, professional development, and service while our members continue to shape the agricultural education profession and make positive changes in the lives of their students. As educators, we know the value networking, professional development, and advocacy have on making a positive impact in the profession and shaping the future.

Congratulations to each of this year’s award recipients who are profiled in this report. We are proud of what they have accomplished! Collectively, they represent the finest and best of what agricultural education has to offer to over one million students each year.

None of this would be possible without the continued support from our sponsors who are recognized throughout the report. We thank them for their commitment to the advancement of agricultural education and agricultural educators throughout our nation!

Finally, thank you to our directors, regional secretaries, committee chairs, ambassadors, members, and staff for their dedicated work on behalf of our organization. We value each individual and we thank you for your continued work and support. We look forward to many more years to come!

Wm. Jay Jackman
Executive Director

**XLR8 Program**
NAAE’s XLR8 National Professional Development Program focuses on providing mid-career teachers the tools and support they need to grow and flourish in their career. The overall goal of the program is to train and promote quality well-balanced teacher leaders who will remain in the profession of teaching agriculture.

2017-2018 Highlights:
- 22 teachers participated in the national cohort
- 119 teachers have participated since the introduction of program in 2013 with a 98% retention rate
- 4 State/Regional Institutes were held with 85 additional teachers trained
- Teachers participated in 14 hours of specifically designed professional development sessions with topics including:
  - Balancing work and family life
  - Reducing stress
  - Teaching with Your Strengths
  - Health and Wellness

Teachers Turn the Key

Agricultural education is continually faced with a shortage of qualified teachers. Unless those who have been trained enter and remain in the profession for a period of several years, the shortage of qualified teachers will prevail. As a means of encouraging young teachers to remain in the profession and to encourage and recognize participation in professional activities, NAAE offers the Teachers Turn the Key Program.

This program is sponsored by RAM Trucks as a special project of the National FFA Foundation.
